16

Only water in clear bottles may be brought into the class.

17

Learners are not allowed to eat in class.

**BE HONEST. BE RESPONSIBLE.
BE PROUD OF YOUR WORK.**

★ FOLLOW THE RULES TODAY FOR YOUR SUCCESS TOMORROW! ★

SMART STUDY TIPS

FOR GRADE 4-7 LEARNERS

Good habits today, great results tomorrow!

1

STUDY A LITTLE EVERY DAY (DON'T CRAM!)

Your brain remembers better when you revise in small chunks.

Even 20-30 minutes a day is more powerful than studying everything the night before.

2

USE YOUR DEMARCATION LIKE A TREASURE MAP

Your demarcation shows exactly what to study—nothing extra, nothing missing.

Tick off topics as you revise so you know what you've mastered.

3

DON'T JUST READ... DO SOMETHING!

Reading is not enough. Try:

- Writing summaries in your own words
- Drawing mind maps
- Doing practice questions
- Explaining work to someone else

4

TEACH IT TO SOMEONE ELSE

If you can explain it to a friend, sibling, or even your teddy bear—you truly understand it!

5

BREAK BIG WORK INTO SMALL PIECES

Instead of "I must study Natural Science," say:

- Today: Mixtures
- Tomorrow: Solutions

Small steps = less stress

6

USE A TIMER (FOCUS POWER!)

Try studying in short bursts:

25 minutes studying → 5 minutes break

This helps your brain stay sharp and focused.

7

MAKE IT COLOURFUL AND FUN

Use:

- ✓ Highlighters
- ✓ Colour codes
- ✓ Drawings and diagrams
- ✓ Flashcards

Your brain remembers colour and visuals better!

8

SLEEP IS PART OF STUDYING

A tired brain forgets easily.

Aim for a good night's sleep before test days—your brain needs it to "save" information.

9

AVOID DISTRACTIONS

Put away:

- ✗ Phones
- ✗ TV
- ✗ Loud noise

Create a quiet "study zone" where your brain can focus.

10

BELIEVE IN YOURSELF

Confidence matters! If you prepared, you are ready.

Stay calm and do your best.

★ PREPARE WELL. STAY POSITIVE. YOU'VE GOT THIS! ★
